

Saeed Shaffi

Senior Product Designer, Design Systems, UX Research & AI-Assisted Product Design

Berlin, Germany saeedshaffi@gmail.com +49 176 66104496 Portfolio: saeedshaffi.com

Work Authorization: EU Blue Card (Germany), no sponsorship required

SUMMARY

Senior Product Designer with 10+ years leading design systems and end-to-end UX for fintech, SaaS and B2B platforms. Connects user research to product strategy, ships design systems that scale across dozens of screens, and brings AI-assisted workflows into research, prototyping and design-to-development handoff. Computer-science background; comfortable partnering across product, engineering and data teams to ship measurable, data-driven outcomes.

EXPERIENCE

Senior Product Designer, Deel

Remote · Jan 2025, Present

- Led the complete redesign of the client experience, delivering a more intuitive, user-friendly interface that significantly improved customer satisfaction and engagement.
- Introduced and integrated key features including reporting and employee payroll processing, streamlining operations and enhancing the overall client experience.
- Increased client retention and positive feedback, demonstrating the effectiveness of the design solutions in addressing user needs.

Lead Product Designer, Expertlead

Remote · Jan 2023, Dec 2024

- Streamlined design workflows and operating processes, increasing team productivity by 55% and improving product quality within two months.
- Designed and built turnover-expansion and revenue-consolidation applications from scratch for B2B SaaS clients, improving operational efficiency and reducing time-to-market by 30%.
- Built a comprehensive design system in six months, increasing customer productivity by 54% and ensuring UI consistency across all products.
- Authored design documentation and a style guide, reducing design inconsistencies by 40%.
- Led usability testing and user research that increased adoption of new features by 45% and strengthened cross-departmental collaboration.
- Designed an "Interview as a Service" product, improving HR efficiency and client engagement within four months.

Founding Product Designer, PayPro Private Limited

Hybrid · Jan 2021, Jan 2023

- Led end-to-end redesign of the core fintech platform, using user research to guide product decisions and driving a 30% increase in engagement.
- Built PayPro's design system from the ground up, removing UI inconsistencies and improving usability across the product.
- Reimagined the visual identity and expanded the brand color system, contributing to a 25% increase in user engagement.
- Drove product improvements from market and behavioral data, helping increase user retention from 28.5% to 87.15%.

Senior Product Designer (Contract), CreditBook

Remote · Feb 2021, Jul 2021

- Led a cross-functional design team building CreditBook's design system from scratch.

- Enhanced existing features and introduced new functionality aligned to user needs and market demand.
- Improved product quality by 40% through strategic design decisions and close engineering collaboration.

Product Designer, IDEATE Innovation

Onsite · Jul 2019, Dec 2020

- Redesigned mobile and web applications for major international banks, improving fintech user experience by 35%.
- Conducted in-depth user research to identify pain points and shape design solutions.
- Built a design system spanning 60+ screens, standardizing patterns and streamlining delivery.
- Led design QA, validating changes through rigorous testing and user surveys.

Product Designer, PriceOye.pk

Onsite · Jun 2016, Aug 2018

- Established the company's UX process, laying the foundation for user-centered design.
- Ran user interviews and journey mapping to surface pain points and inform decisions.
- Delivered a detailed style guide, standardizing design elements and reducing design inconsistencies by 50%.

Senior Product Designer, Multiple Contracts

Remote · Jun 2017, Present

- Delivered human-centered design for international clients, including a digital organic-market app and branded crypto-gateway systems for decentralized partners including Sandbox and Mana.
- Improved usability and engagement across client platforms by 40% through tailored design solutions.
