Employment History

Deel • Senior Product Designer

Jan 2025 – Present

Remote

- Redesigned Client Experience: Led the complete redesign of the client experience, resulting in a more intuitive and user-friendly interface that significantly improved customer satisfaction and engagement.
- Feature Implementation: Successfully introduced and integrated key features such as reporting, employee payroll processing, and other tools that streamlined operations and enhanced the overall client experience.
- Increased client retention and positive feedback, demonstrating the effectiveness of the design solutions in addressing user needs.

Expertlead • Lead Product Designer

Jan 2023 – Dec 2024

Berlin, Germany

- Led AI-driven design workflow improvements by integrating tools like Claude into daily design and documentation processes, increasing team productivity by 55% and improving overall product quality within 2 months.
- Used Claude to directly support frontend design and development workflows, including generating UI structures, improving component logic, creating implementation-ready specifications, and accelerating the transition from design to frontend output.
- Led the end-to-end design of turnover expansion and revenue consolidation applications from scratch, using AI-assisted research, requirement structuring, and rapid design exploration to improve operational efficiency and reduce time-to-market by 30%.
- Built and scaled a comprehensive design system within 6 months, using AI to speed up component documentation, variant definition, usage guidelines, and design-to-development handoff, improving customer productivity by 54% and ensuring consistency across multiple products and teams.
- Created detailed AI-assisted design documentation, component guidelines, and style guides, reducing design inconsistencies by 40% and improving collaboration between designers, developers, and product stakeholders.
- Strengthened cross-functional collaboration by using AI to synthesize user research, structure usability testing insights, prepare stakeholder documentation, and improve decision-making, increasing adoption of new features by 45%.
- Led the design of an innovative AI-powered “Interview as a Service” platform, improving HR efficiency and client engagement within 4 months by streamlining interview workflows, candidate evaluation, and client-facing experiences.

PayPro Private Limited • Founding Product Designer

Jan 2021 – Jan 2023

Hybrid

- Led the end-to-end redesign of a core platform, using user research to guide key product decisions, resulting in a 30% boost in engagement.
- Built a design system from the ground up, eliminating UI inconsistencies and significantly improving usability across the product.
- Reimagined PayPro’s visual identity, updating the brand system and expanding the color palette, which led to a 25% increase in user engagement.
- Drove product improvements based on market shifts and user behavior, helping increase retention from 28.5% to 87.15%.

CreditBook • Senior Product Designer (Contract)

Feb 2021 – Jul 2021

Remote

- Led a cross-functional design team, developing and implementing a comprehensive design system from scratch.
- Enhanced existing product features and introduced new functionalities, ensuring alignment with user needs and market demands.
- Improved product quality by 40% through strategic design decisions and effective team collaboration.

IDEATE Innovation • Product Designer

Jul 2019 – Dec 2020

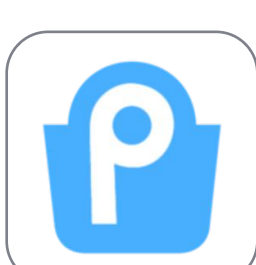

Onsight

- Led the redesign of mobile applications and websites for major international banks, improving user experience in the financial domain by 35%.
- Conducted in-depth user research, identifying pain points and developing innovative solutions to enhance usability.
- Created a robust design system from scratch, ensuring consistency across 60+ screens and streamlining the design process.
- Led design quality assurance (QA) efforts, ensuring seamless integration of data-driven applications and validating design changes through rigorous testing and user surveys.

PriceOye.pk • Product Designer

Jun 2016 - Aug 2018

Onsite

- Established the UX process within the company, laying the foundation for a user-centered design approach.
- Conducted in-depth user interviews, mapping out user journeys and identifying pain points to inform design decisions.
- Improved interactive designs, ensuring compliance and delivering an intuitive user experience.
- Developed a detailed style guide, standardizing design elements and reducing design inconsistencies by 50%.

ABOUT ME

Data-driven Lead Product Designer with 10+ years of experience creating scalable design systems, leading end-to-end product design, and optimizing user experiences across complex digital products. With a computer science background, I bridge technical understanding with design strategy to deliver practical, high-impact solutions. Proven ability to improve user engagement, retention, operational efficiency, and design consistency through research-backed decisions, cross-functional collaboration, and strong design leadership.

SKILLS

Design Tools & Software:

Figma

Adobe XD

Sketch

Zeplin

Abstract

Miro

Trello

Balsamiq

Design & Prototyping:

UI/UX Design

Wireframing

Prototyping

Design Systems

User-Centered Design

Interaction Design

User Research & Analytics:

UX Research -

Usability Testing

Google Analytics

Hotjar

Maze

Amplitude

Open Replay

Project & Team Management:

Jira

Notion

Agile Methodologies

Cross-Functional Collaboration

Remote Team Leadership

CERTIFICATES

Design Principles

University of California, San Diego

Human-Centered Design

University of California, San Diego

Social Computing

University of California, San Diego

EDUCATION

Bachelor in Computer Science

Shaheed Zulfiqar Ali Bhutto Institute Of Science And Technology
